

Level 2: Whiz & Perfect Pet Novice

So, you have completed Level 1 (Puppy Kindergarten or Beginners), and feel you'd like to continue honing up on your partnership skills, either to become a more sensible, manageable companion, or perhaps, your interest has been peaked at continuing on to performance sports (rally, agility, flyball, freestyle, etc). This is where you want to continue down the path to a better trained dog. K-9 Studio is the only training facility that has introduced these sports to Thunder Bay dog lovers, and continues to explore and tweak our training methods to better enhance our classes!

Whiz is for youngsters who have just completed Puppy Kindergarten. Once again, we like to keep those upcoming teenagers together, since their learning skills are often similar.

Perfect Pet Novice is for the teenagers and adults who will continue on to sharpen their skills and learn more.

Taking a second level class is often just enough to pave the road to understanding the exercises we began in Level 1, for both you and your dog. We begin to introduce proofing, and final steps to exercises begun in the previous level, making them more reliable in day to day life activities.
