

Serena **Puppy Kindergarten & Beginner Instructor**

Serena started out in horses and eventually realized that she could go to a dog show with a crate, a bag and an economy car as opposed to two trucks and a horse trailer. Serena has had different breeds, but it's the dachshund that has stolen her heart. She also finally has a bull terrier after many years of pining for one.

Serena started out driven for competitive titles in dog-sports but soon realized that it was the development of an effective working relationship with her dogs, and a chance to bond at a deeper level that was more important (thanks Trish!). She'll still get those titles, but she and her dogs will have a lot more fun getting there.

Serena's favourite part of classes at K-9 Studio is watching frustrated owners turn into proud parents who believe they have the best dog in the world- a dog who can do anything!"
